FOCH'S MASTER STROKE TO COME

Onward Christian Soldiers!

TANKS STORM MAMELLE FORT; DRIVE GERMANS INTO OPEN.

WITH THE AMERICAN ARMY NORTHWEST OF VERDUN, Oct. 9, 10:25 p.m.—Reports show that the Mamelle fortifications have been occupied by the Americans. The troops had to storm the redoubtable Hill 269, which was taken as early as 10 o'clock this morning. Hill 263 was captured a half hour later.

Strength—their tremendous fortifications and concrete pill boxes—were shattered by the American tanks and the stiffest kind of fighting. The Americans advanced and the German forces were driven back. The American tanks were the main force in the attack, and they were supported by the American infantry. The German forces were driven back into the open, and they were surrounded by the American tanks and infantry. ALLIED GUNS CUT FOE TO SHREDS.

WITH THE ANGLO-AMERICAN ARMIES NEAR ST. QUENTIN, Oct. 9.—The great battle between the British and the Germans continues today with unceasing fury. Strong attacks were launched at daylight this morning by the British and American armies. The troops of Field Marshal Haig and Gen. Pershing are carrying their attack steadily to the eastward.

The British gunners today paid special attention to roadblocks and the areas between the roads, and the terrain was churned by an avalanche of shells. The advancing troops found the roads, however, in good condition. The Germans in front of the British and Americans today were surrounded by the British and American tanks and infantry. The German forces were driven back into the open, and they were surrounded by the American tanks and infantry. The American tanks were the main force in the attack, and they were supported by the American infantry. The German forces were driven back into the open, and they were surrounded by the American tanks and infantry.

LONDON, Oct. 9.—Field Marshal Haig's communication seems to mark another phase in the astonishing success of Allied arms, namely, the completion of the breaking through of the whole Hindenburg defensive system from Arras to St. Quentin.

According to accounts sent by the correspondents at the front, the general belief is that there are no further strong defensive positions to conquer such as now have been passed and the field marshal's report that British troops are moving rapidly eastward between the Somme and the Senee, capturing rear guards and batteries, seems by implication to confirm this theory.

Unofficial reports were current in London tonight that British advance guards were within a mile or so of Le Cateau and were approaching Lille. There also were rumors that Marshal Foch's master stroke was still to come. There is no means of confirming these reports, but it seems certain that there is a general army retirement going on along the line from Arras to St. Quentin.

GERMANS, NEARING DEBACLE, MAY BOW TO U. S. DEMANDS

HUN ARMY CRUMBLES. ALLIES ROUT HUN HOSTS

Disintegrating by Allied Blows. Thirty Divisions in Full Flight.

WASHINGTON, Oct. 9.—Germany's plea for an armistice is founded, both American and Allied military officers here believe, upon recognition of the fact that the German army's organization in France is slowly disintegrating under the terrific campaign of Marshal Foch. These officers regard the move of the German Chancellor as a desperate eleventh-hour attempt to escape military disaster and they would not be surprised if President Wilson's condition that there can be no talk of an armistice except when coupled with agreement to withdraw immediately from all invaded territory were promptly accepted. The answer to such a move, it was suggested today, would be to leave to Marshal Foch the dictation of the terms of the armistice should the situation ever reach that stage, as the supreme commander can be trusted to see that no military advantage to the enemy resulted. In the meantime, Marshal Foch hour by hour is surrounding the German forces with new perils as his strategic conceptions are developed. Evidence of the waning resistance power of the German forces in France was plainly seen by observers here in the sweep forward of the Anglo-American forces north of St. Quentin. Apparently there has been no material lowering of the fighting quality of the enemy soldiers, but there is every evidence that the complex military organization upon which defense of the long battlefield depends is breaking under the strain. Signs of confusion have been noted repeatedly. Worn out divisions have been called upon to check the assault of fresh Allied troops and have been cut to pieces.

HUN ARMY HEART WEAK.

These are signs only, for the enemy front still offers a grim obstacle to the advancing armies and the battle is growing daily in fury instead of lessening. But the signs are there. They mean a vital weakness at the heart of the great machine; the absolute lack of the men and war equipment to meet the combined assault indefinitely.

The line between Verdun and the sea, two salients are developing. The first has its apex along the Laon front, where the enemy still clings to St. Gobain.

BELETED NEWS.

LONDON, Oct. 9.—Germany is ready for unconditional surrender, like Bulgaria, according to the general view held by diplomatic circles in the German empire, said an Amsterdam dispatch to the Chronicle.

WITH THE BRITISH ARMY ON CAMBRAI-ST. QUENTIN FRONT, Oct. 9, 4:30 p.m.—

The German troops on a twenty-mile front have been put to full flight and the British cavalry is reported to be pursuing them, the infantry marching in columns of four through villages hastily abandoned by the enemy.

Cambrail has fallen and the British are now well to the east.

The deepest gain some hours ago was at least nine miles on this sector, and there are no signs of the advance slowing up. On the contrary, it is going faster every hour, with clear ground ahead.

Everything that could be burned had been set afire by the enemy before he began what virtually amounts to the rout of no less than thirty divisions, the smashing of which was considered a famous feat.

North of Cambrai the Canadians attacked and penetrated deeply also. The British marched through Bertry without opposition. They reached the outskirts of Trosleville and held Maurois and Honnechy.

Large forces of the enemy have been seen from the air flying well to the east of Le Cateau.

Marais fell early and the British reached Busigny and passed quickly through Bohain. There are only a few of more than a score of towns captured.

Many thousands of prisoners and quantities of field and machine guns were taken, as well as vast stores of other booty, which the enemy did not have time to blow up or set afire.

All this was the immediate effect of yesterday's great victories, which are being exploited to the fullest. The Germans may try to make a stand on their partly completed line at Le Cateau, but they have been badly punished and they face an overwhelming disaster.

WITH THE BRITISH ARMY ON THE CAMBRAI SECTOR, Oct. 9.—Successive explosions have occurred in Cambrai, which is reported, have reduced the town to ruins.

BRITISH HEADQUARTERS IN FRANCE, Oct. 9. (Reuters).—Many of the gains in yesterday's battle were won from the enemy only after a desperate struggle. At Villers-Outreaux, the British were met by a perfect storm of machine-gun fire, behind which German infantry was massed in great strength. But sheer doggedness finally subdued this intense resistance, the village was taken and cleared up while the front line pushed well to the east of it.

A heavy counter-attack launched from the direction of Avion resulted in fierce hand-to-hand fighting before which our lads had at first to give some ground against the weight of superior numbers.

Naval divisions rolled in a deep wave through the strongly fortified village of Niergnies, taking many prisoners, as they flowed out into the green country beyond.

BERLIN ADMITS LINES SMASHED.

Prussian Empire Trembles in Balance Before Onrush of Anglo-American Armies Around St. Quentin and Cambrai—Prisoners by Thousands.

BERLIN (via London) Oct. 9.—Reporting the great battle in Cambrai-St. Quentin sector, the general headquarters today admits breaches in the German lines on both sides of the Roman road toward Le Cateau and also a German withdrawal to Fresnoy-le-Grand.

LONDON, Oct. 9, 6:30 p.m.—The Standard says it learns that the Anglo-American advance between Cambrai and St. Quentin continues and that the big railroad town of Busigny, southwest of Le Cateau, has been taken.

LONDON, Oct. 9.—For all practical purposes the Allied troops now hold the Cambrai-St. Quentin Railway. The maximum advance at 2 o'clock this afternoon was five miles at Bertry, four miles southwest of Le Cateau.

PARIS, Oct. 9.—The American troops fighting west of the Argonne Forest today were west of Comoy on the Aire River, having effected a junction with the French troops from the south. The operation was progressing normally this afternoon.

In the Argonne the attack is continuing notwithstanding the miry roads resulting from the heavy rains of Tuesday.

It has been ascertained that three out of four German divisions facing the Americans at the beginning of the offensive have been withdrawn exhausted and replaced by fresh troops.

WITH THE AMERICAN ARMY IN CHAMPAGNE, Oct. 9.—In their operations west of the Argonne Forest the Americans have penetrated more than two kilometers beyond the line between St. Etienne and Orfèville. Heavy French and American artillery preparation preceded the advance of the infantry.

Soon after the activity started the Germans attempted a counter-attack, but were repulsed by the Allied artillery. Several airplanes cooperated with the French just north of St. Etienne, beating off the German infantry and machine gunners. The principal resistance was with machine guns.

The troops advanced over yellow clay ground and the clay, blending with the khaki, made the American uniform a difficult target for the Germans.

The Americans went over a slight slope through stubby spruce and pine trees, feeling perfectly at home, the country resembling their native heath in the Southwest.

PARIS, Oct. 9.—French troops attacking last night south and east of St. Quentin captured the German defense between Harly and Neuville-St. Amand and drove past the latter town on the north, today's official statement by the War Office announces.

Attempts by the Germans to recapture the positions gained yesterday by the French north of the Arnes were repulsed with heavy losses to the enemy.

Nearly 18,000 Germans were taken prisoner yesterday by the Allied forces in the fighting along the various fronts of the battlefield, says Marcel Hutin in the Echo de Paris today. The Germans, he adds, are hurriedly evacuating the Argonne Forest. The battle is continuing.

The Hindenburg line no longer bars the path of the Allies. The definite rupture of it was achieved on the first day of the fighting in the new development north of the Escout.

LONDON, Oct. 9, 4:40 p.m.—The German retreat from the Scarpe River southward to below St. Quentin enabled the British easily to advance from two to three miles this morning.

The Germans started backward last night. The British have met with little resistance today, as they have not been in contact with the German main line.

In the American sector of this front the Germans are resisting very strongly. American losses, however, have not been heavy. The total American casualties are less than half the number of Germans taken prisoner.

The Anglo-American attack was resumed this morning on the entire front south of Cambrai. Field Marshal Haig reported rapid progress was being made.

Last night additional progress was made east of Sequehart and toward Bohain and Marais.

South of Cambrai the British captured Foreville and reached the western outskirts of Wallcourt.

The attack this morning was on the front of the Third and Fourth armies. First reports indicated that rapid progress is being made everywhere.

Shortly after midnight Canadian troops attacked north of Cambrai. Ramillies has been captured and the crossings of the Canal de l'Escaut secured in the neighborhood of the village. Our troops have entered Cambrai.

The number of prisoners taken by us yesterday exceeds 3000 and we have captured many guns.

To Anglo-Saxon forces went the honor of storming the last remnants of the extraordinary mass of defenses between Cambrai and St. Quentin. The day's fighting was notable also in that the enemy's losses must have run into tens of thousands of men during the day's fighting in the various sectors of the long battle front. In addition important strategic objects were attained.

The Allies now are in the open country on the Cambrai-St. Quentin front and are threatening Bohain, an important transportation junction. The Americans last night having pushed within two miles of that place. Once the masters of Bohain, the Allies could take in the rear not only the Laon-St. Gobain massif but the Hindenburg line along the River Serre, which joins at Chaumont-Porcien the Brussels line running along the Aisne.

All the German positions parallel to the German frontier, starting in the east and running as far as La Capelle, Verdun and Marais, run the risk of being raked in.

PARIS SENSES HUN DISASTER.

Leaders See Crumbling of
German War Machine.

Wilson's Note Greeted with
Acclaim in France.

Tentative Peace Move Looked
on as Hypocrisy.

Paris, Oct. 9.—(Havas).—Paris
regards the news from the front as
indicating a general giving way of
the German line—a collapse, place
by place, of the enemy's positions
and a crumbling away of his army
regiment by regiment and division
by division.

The formidable war machine is
as seriously affected, it is pointed
out, that even those who fashioned
it now are doubtful of its soundness
—hence their eagerness to make the
first that they have really formulated.

The attitude of Paris yesterday
when the stirring news of the Al-
lies' successes were coming in was
impressive from the calmness of the
people. The discussion of the reports
in public places generally betrayed
the passionate interest the public
attaches to the sensational develop-
ments.

But there was no demonstration
or anticipation of any speedy peace.
The people, it was said, had learned
the necessity for prudence
and caution in considering the pos-
sibilities.

The news of the diplomatic move
was greeted with the same quiet as-
surance as that of the Allies' mil-
itary successes. If the imperial Ger-
man Chancellor and the Austro-
Hungarian Foreign Minister had
hoped to start a popular move for
peace every sign pointed to their
having grossly deceived themselves.

PARLEY IN FRONT.

In general the opinion was ex-
pressed that the utterances of the
enemy statesmen indicated no will-
ingness to grant the demands of
France for her lost territory and ex-
pressed the view that a conference
to discuss this question would be
useless. It was pointed out, in ad-
dition, that the Germans accom-
panied their peace move with an or-
der for the capture of the line in the
west front, the horizon at the mo-
ment being ablaze with the flames
from towns, villages and farms,
fighting a bitter battle on the road
of the German retreat.

"It must indeed be the case," de-
clared the Paris correspondents,
"that the German statesmen, who
are out of their minds to commit
such insane deeds at such a com-
mitment, are betraying their pacifist
intent."

Premier Clemenceau's newspaper,
L'Homme Libre, declares that, "if
everything is subordinate to the
question of the enemy does or does
not accept simply and purely the prin-
ciple and conditions stipulated by
President Wilson."

"There is no necessity to have an
armistice nor long negotiations, but
that or to minor matters or com-
promise," that organ says.

The newspaper France Libre, the
national socialist organ, declares that
it would accept in advance
completely and fully what President
Wilson's note says, adding, "in-
cluding to him as 'the one whose
noble intelligence and high moral
integrity make him the world
arbitrator.'"

REPLY HONORS AUTHOR.

Commenting editorially on Presi-
dent Wilson's reply, the Journal des
Debats says:

"This very direct reply does the
greatest honor to its author. It
confronts the German calculations
with the reality of the situation. The
Vice-Chancellor's note is a mere
sue to place the United
States before a dilemma—either to
accept the armistice, which would
mean Germany's time to recon-
stitute her harnessed troops, or to evoke
in Germany, by a refusal of the offer
of peace, the united action of the
allies, which would rally around the new
government the whole nation, in-
cluding the Socialists and the
Communists."

OTRAGE ON CIVILIZATION.

Julius Cambon, the former French
Ambassador at Washington, and one
of the foremost figures in French
affairs, said to the Associated Press
today:

"At the moment the Central Powers
address themselves to President
Wilson to obtain the terms of the
begin negotiations for peace, the
German armies renew the horrors
they have been committing in all
the occupied territories."

"St. Quentin, Lens, Cambrai and
Douai are burned, ruined, rained.
Having formerly been prefect of the
Department of the North, I know
what this new terror means to the
regions devastated by the German
armies. These represent the richest
territory of France, where the largest
French industrial establishments
are located. All these centers have
a glorious past. They are filled with
splendid monuments and museums
and libraries of priceless treasures.
In Cambrai stands the Tomb of the
Illustrious Fension."

"One cannot view without pro-
found sadness all the ruins in Ger-
man invaders are leaving behind
them—ruins that represent not only
material losses, but also moral losses.
The conduct of the German
armies is an outrage to civilization
and humanity."

MINISTERIAL CRISIS

nounced that all the ministers ex-
cept Santiago Alba will retain their

Count Romanones will be the Min-
ister of Public Instruction instead of

BARBER GIVES RECIPE FOR GRAY HAIR

Tells How to Make a Home-Made Gray Hair Remedy.

Mr. A. E. O'Brien, who has been a barber in New York City for many years, made the following statement: "Gray, streaked or faded hair can be immediately made black, brown or light brown, whichever shade you desire, by the use of the following remedy, that you can make at home:

"Merely get a small box of Oriz powder, at any drug store. It costs very little and no extras to buy. Dissolve it in water and comb it through the hair. Full directions for mixing and use come in each box.

"You need not hesitate to use Oriz, as \$100 gold buttons in each box guaranteeing the user that Oriz powder does not contain silver, lead, zinc, sulphur, mercury, salina, coal-tar products or their derivatives.

"It does not rub off, is not sticky or gummy and leaves the hair fluffy. It will make a gray-haired person look twenty years younger."

Says She Will Never Be Without Tanlac.

"I have not only gained twenty pounds by taking Tanlac, but I really believe it has given me a new lease on life," said Mrs. Myrtle Farrington, residing at 1220 West 47th street, Los Angeles, in one of the most interesting and remarkable statements yet published in connection with the Master Medicine. Mrs. Farrington is the wife of Charles Farrington, who has been employed by the Southern Pacific Railroad for the past fifteen years and was at one time boiler inspector for his company in the State of Texas. Mr. and Mrs. Farrington formerly lived at San Antonio, Texas, and it was there that her experience with Tanlac began.

"In 1894," she continued, "I began having serious trouble with my stomach. No one seemed to understand my case, nothing did me any good, and my suffering was awful. Everything I would eat caused gas to form on my stomach and every few days I would get so nervous and weak and have such terrible headaches that I would just have to give up and go to bed. Many a night I could not sleep at all. I fell off until I weighed only ninety-four pounds and lost all my energy. It just seemed that my entire constitution was broken down and I suffered mentally as well as physically. There was never a week from 1894 to 1917—twenty-one years—but what I had a spell with my stomach. I tried everything, even spent some time in the hospital, but got worse until I reached the point where I felt that I could not live much longer without a change.

"In the spring of 1917 I got so fed up that I was almost in despair and could see no hope of ever getting any better. We were living in San Antonio at this time and as Tanlac was being talked about so much I got me a bottle, and that's where the long lease turned for me. My appetite improved with my first bottle and I found I could eat without suffering afterwards. My nervousness and pain gradually disappeared and I soon got so I could sleep all night and get up in the mornings feeling rested and fine. I have taken six bottles of Tanlac in all and my health has been completely restored. My nerves are normal and I am feeling strong, well and cheerful. I now weigh one hundred and fourteen pounds—have gained twenty pounds—my family thinks just like I do that Tanlac is wonderful. Tanlac is my standby. It is the only medicine I have taken in the past eighteen months and I always keep a bottle in the house. I am always telling somebody about it and am willing for the world to know what I think of it."

Tanlac is sold in Los Angeles, Pasadena and San Diego by the Owl Drug Co., under the personal direction of a special Tanlac representative.—[Advertisement.]

CLEVER LOGIC, BRITISH VIEW.

Diplomats Regard President's Peace Reply Wise.

English Press Unanimous for Belgian Reparation.

Labor Agrees Further Elucidation Necessary.

[BY ATLANTIC CABLE AND A. P.]

LONDON, Oct. 9.—Discussing the ultimate peace terms, the London newspapers refer with indignation to the outrage still persisted in by the retreating Germans and unanimously demand reparation and punishment for these latest crimes as well as for other outrages committed during the war.

The Daily Telegraph says: "The evacuation of Belgium will not undo the crime of 1914. Reparation to the fullest measure must also be made, for Belgium has the first claim on Germany's resources for the unspeakable outrages she has suffered."

The Morning Post says: "Indemnity for Belgium should be made as heavy as possible, and Germany made to feel the weight of her transgressions by the necessity of paying for them."

The Post also suggests that the war indemnity should include the handing over to the Allies of the merchant ships which Germany has been building.

The Daily Mail demands that Germany should be punished with the utmost severity for the wanton destruction of French towns, and the other newspapers endorse this demand.

The Daily Express counsels the stoppage of raw materials to Germany, until all accounts have been settled.

DIPLOMATIC VIEWS.

In diplomatic circles here President Wilson's reply to the peace proposals of Prince Maximilian, the Imperial German Chancellor, is regarded as clever and logical.

It is felt in these circles that the President was wise in refraining from a flat rejection. The President, however, it is considered, displays the same attitude of skepticism as do British and continental statesmen concerning the good faith of the German government.

It is believed that a satisfactory answer to President Wilson's question will severely test Germany's good faith while an affirmative reply will mean the acknowledgment of a German defeat.

The acumen and logic of the American Executive in framing the reply is regarded by the diplomats as characteristic of him.

TRADE UNION SENTIMENT.

In a manifesto issued by the Parliamentary Committee of the Trades Union Congress and the Labor party executive, the opinion is expressed that the German peace offer is entitled to reasoned consideration. "We recognize," the manifesto adds, "that further elucidation of the proposals is absolutely necessary before the Allies' military effort can be checked, while as an essential preliminary the enemy must withdraw his armies from all occupied territory and give a public unequivocal declaration of their willingness to apply the principles formulated by President Wilson honestly and unreservedly to every question to be treated with in the final settlement."

The manifesto urges the Entente governments to declare that unqualified acceptance of President Wilson's conditions, including a league of nations, would be the beginning of official negotiations for a general peace.

CLASH OF AUTHORITY FEARED IN CHIHUAHUA.

CARRANZA ORDERS DEPOSED GOVERNOR BACK; BANDITS WRECK TRAINS.

[BY A. P. MONT WIRE]

JUAREZ, Oct. 9.—Twenty-three Federal train guards were killed, the passengers robbed of their personal possessions and wearing apparel and a passenger train wrecked by bandits near Durango City, October 1, according to a letter received here from Durango City today. A passenger train was also wrecked on the Mexican Central Railroad south of Jimenez Sunday and the escort made prisoners. No passengers were killed on either train.

President Carranza has ordered Gov. Ignacio Enriquez to return to Chihuahua City, resume control of the civil affairs of the State and depose Col. Vicente Leon, acting Governor, according to a letter received here today from the State capital. Gen. Francisco Murguía ordered Gov. Enriquez to take the field against Villa after the Governor and Gen. Murguía had a heated conference over the control of affairs in Chihuahua. Gov. Enriquez is generally considered the president's personal representative in this State. Murguía commands the military in Chihuahua, Durango, Zacatecas and Coahuila. A clash between the military and civil authorities is feared.

ABSOLUTE SURRENDER, ROOSEVELT'S DEMAND.

RELIEVES SORE AIM OF AMERICA IS TO WIN THE WAR, THEN TALK PEACE TERMS.

[BY A. P. MONT WIRE]

OYSTER BAY (N. Y.), Oct. 9.—Col. Roosevelt made the following statement tonight on President Wilson's response to the German peace proposal.

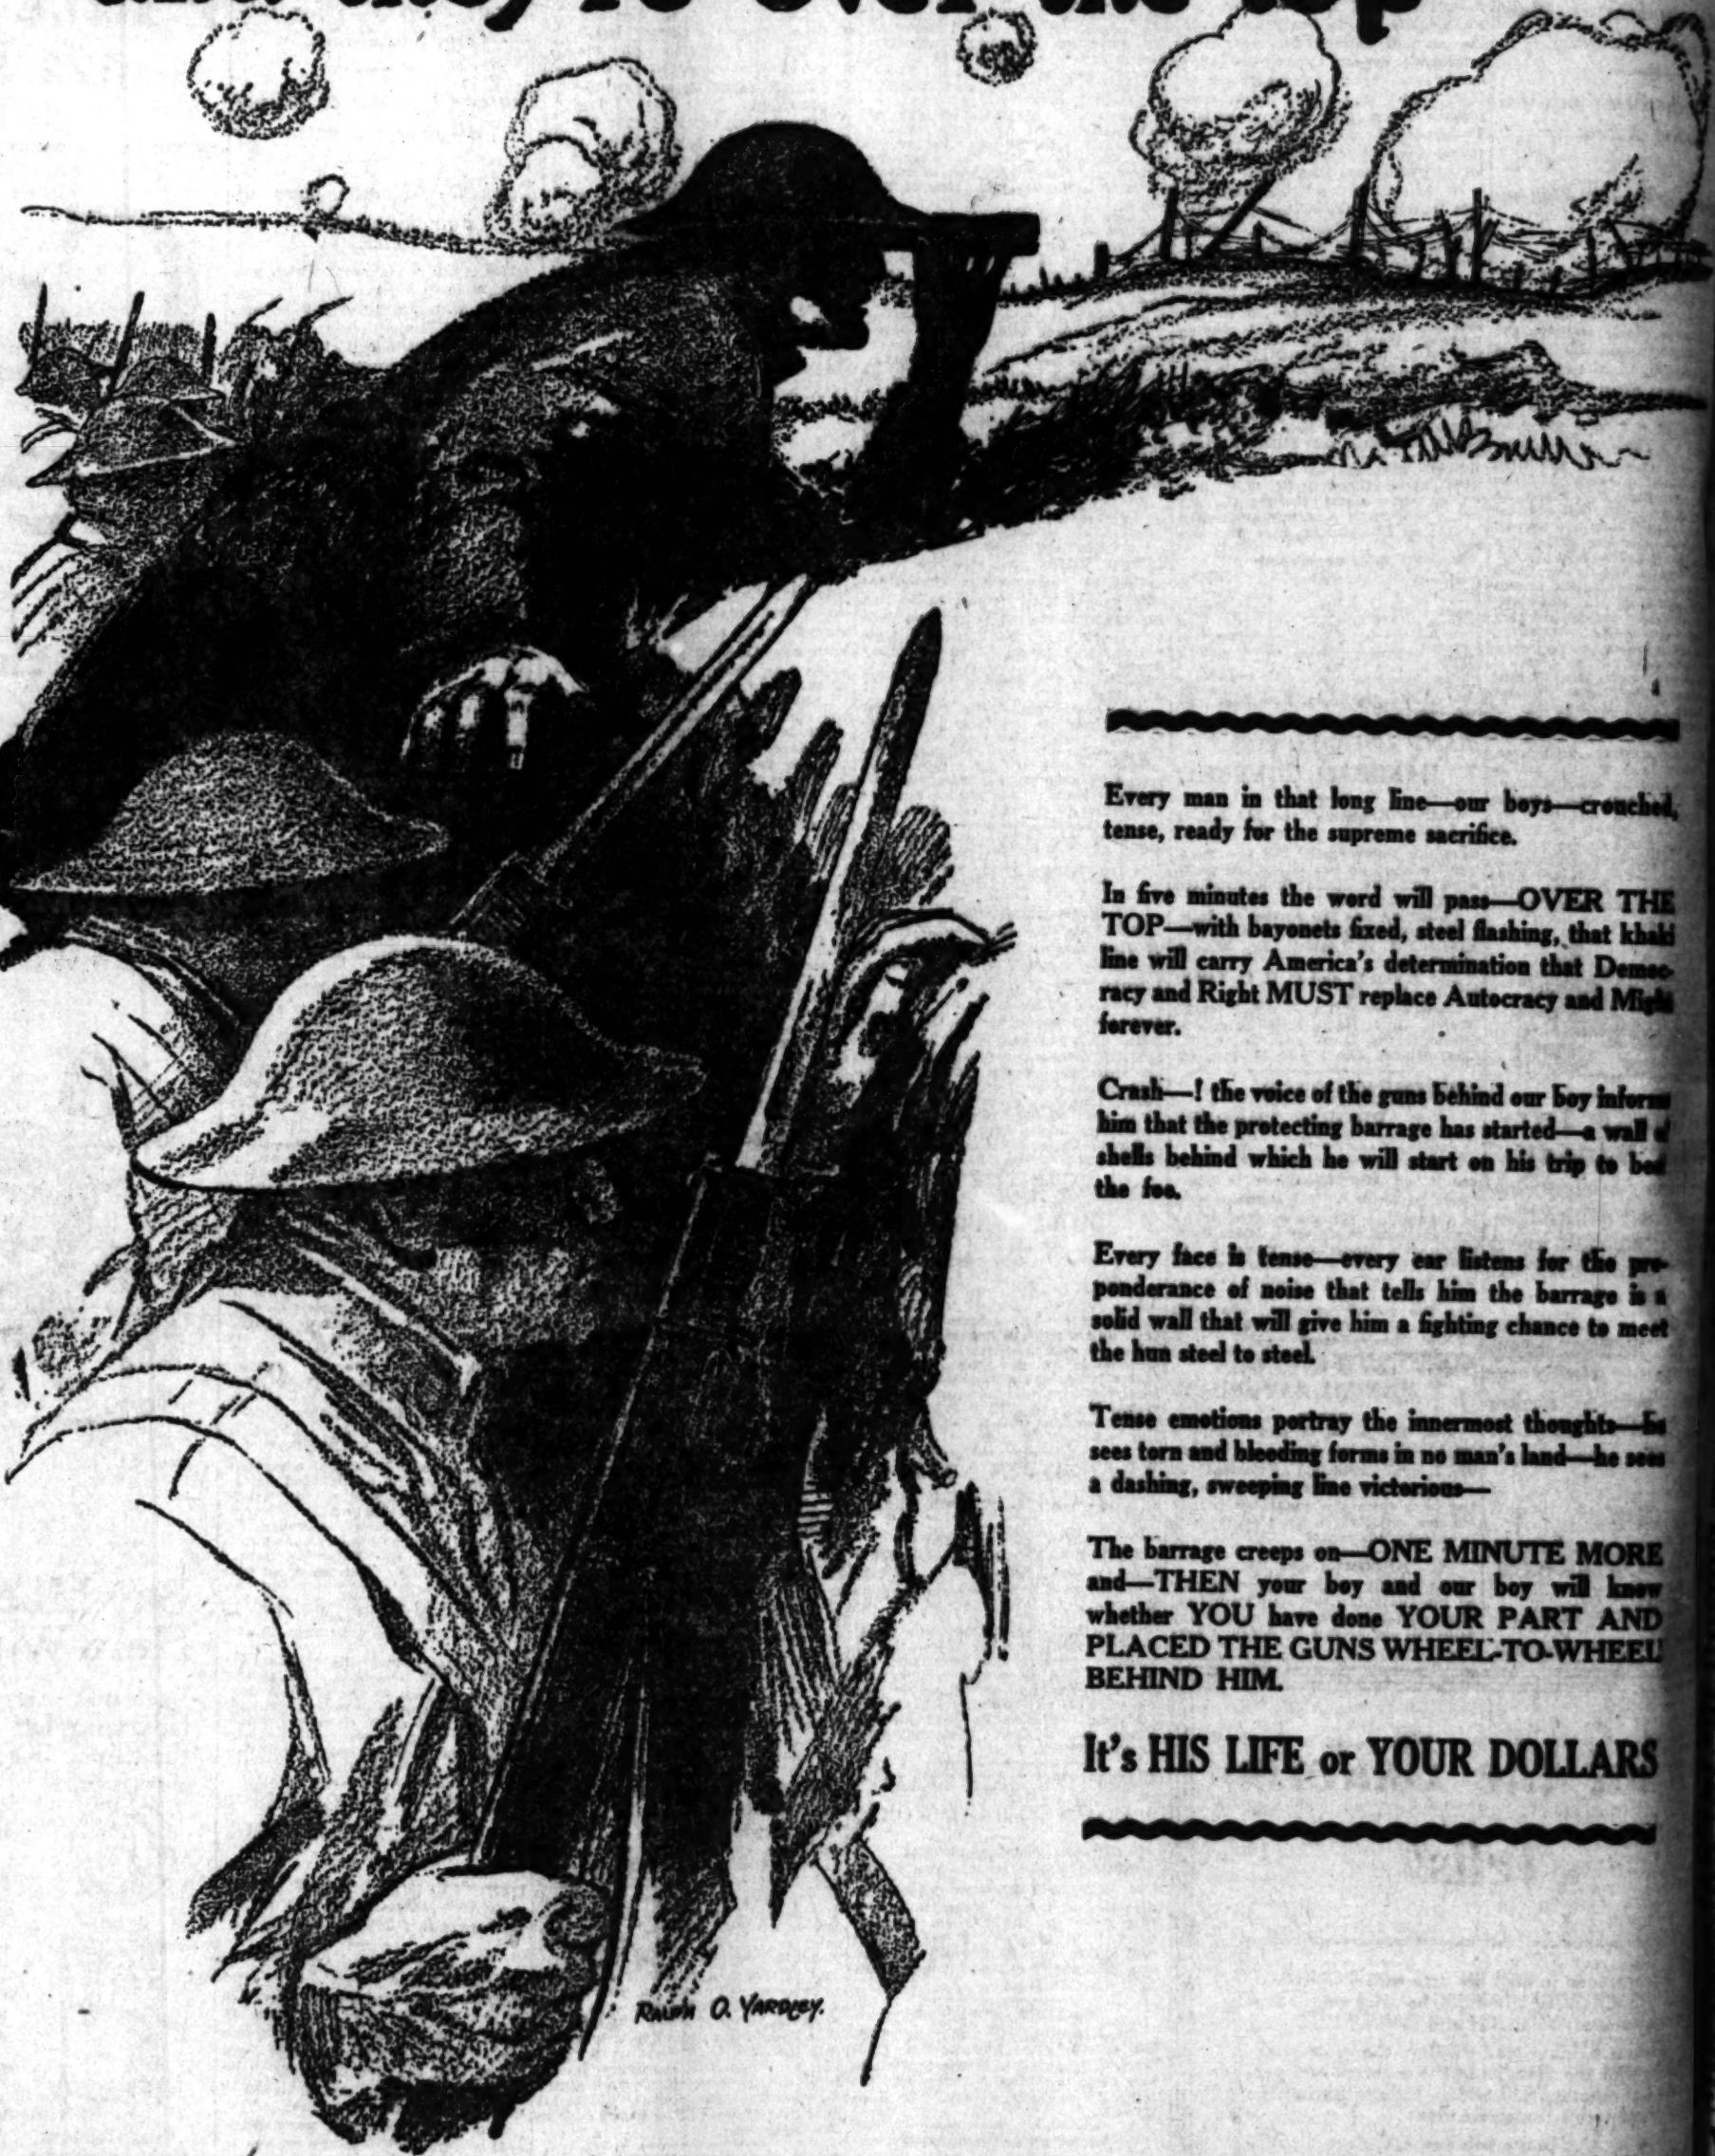

"Four days ago, and again and again prior to that time, I said that this war ought to be fought through until we secured the unconditional surrender of Germany and her vassal allies—Austria and Turkey.

"To this statement I unqualifiedly adhere. I fear that President Wilson's latest announcement will be treated as an invitation to further note writing.

"The effort to fight and to negotiate at the same time is apt to damage the fighting end of the combination.

"Personally, I believe that our sole aim should be to win the war and not to discuss peace terms with the enemy until the war has been won."

Five Minutes and they're over the top—

Every man in that long line—our boys—crouched, tense, ready for the supreme sacrifice.

In five minutes the word will pass—OVER THE TOP—with bayonets fixed, steel flashing, that khaki line will carry America's determination that Democracy and Right MUST replace Autocracy and Might forever.

Crash!—the voice of the guns behind our boy informs him that the protecting barrage has started—a wall of shells behind which he will start on his trip to beat the foe.

Every face is tense—every ear listens for the preponderance of noise that tells him the barrage is a solid wall that will give him a fighting chance to meet the hun steel to steel.

Tense emotions portray the innermost thoughts—his sees torn and bleeding forms in no man's land—he sees a dashing, sweeping line victorious—

The barrage creeps on—ONE MINUTE MORE and—THEN your boy and our boy will know whether YOU have done YOUR PART AND PLACED THE GUNS WHEEL-TO-WHEEL BEHIND HIM.

LEST WE FORGET.

No. 2.

(EXCLUSIVE DISPATCH.)

WASHINGTON, Oct. 2.—The mercy will be shown. No prisoners will be taken. As the Huns under Attila made a name for themselves which is still mighty in traditions and legends today, may the names of Germany be so fixed in China by your deeds that no Chinese shall ever again dare even to look at a German askance. Open the way for kultur once for all."

Thus the Kaiser admonished the German troops on the eve of their departure for China in 1946 to avenge the murder of the German Minister by the Boxers in Peking, and the consequences of the atrocity were later described in the Reichsbote by Herr Bebel, leader of the Social Democrats, as follows:

"An expression of revenge as barbarous as this has never occurred in the last hundred years, and not often in history. At least nothing worse than this has happened in history, either done by the Huns, by the Vandals, by Genghis Khan, by Tamerlans, or even by Tilly when he sacked Mandelburg."

SETTLED GERMAN POLICY.

But "frightfulness," though it has had no more fervent or effective advocate than William II., has been a settled German policy since the days as well as King before civilized nations sought through the Geneva and Hague conventions to minimize the horrors of war by restricting prisoners, the sick and wounded, non-combatants and conquered lands.

"Terrorism," Gen. Von Hartmann announced forty years ago, seems to be a relatively gentle procedure, useful to keep the masses of the people in a state of obedience, by confirming Bismarck, who in 1871, exasperated by the continued resistance of the French, gave orders to "shoot, hang and burn" the inhabitants of recalcitrant localities.

The glad alacrity with which the German army in Belgium and Northern France, an army which represented every shred in the German social fabric from princes to pastry cooks, put the national policy into execution, is indicated by extracts from German soldier diaries. Out of forty examined when their authors were taken prisoner, only six expressed disapproval or dissent.

SAMPLES OF ATROCITIES.

"The village (St. Maurice) was surrounded, men posted about a yard from one another, so that no one could get out. Then the Germans set fire to it, house by house. Neither man, woman nor child could escape; only the greater part of the live stock we carried off was spared to be used. Anyone who ventured to come out was shot down. All the inhabitants left in the village were burnt with the houses." Private Karl Scheufele, Third Bavarian regiment, Landwehr Infantry.

"A terrible spectacle of ghastly beauty," wrote Private Philipp, One Hundred and Seventy-eighth Infantry, of the burning of the village of Elongne, north of Ypres, and Mariboro, Fourth Company, Eleventh Jaeger Battalion, commented on Sunday night, August 21: "About 220 inhabitants were shot dead. The village was burned. All villages, chateaus and houses are burnt down during the night. It was a beautiful sight to see the first all rounds us in the distance."

Sometimes a mistake was made, as recorded by an officer of the One Hundred and Seventeenth Regiment, Twelfth Saxon Corps: "A cyclist fell off his machine and his rifle went off. He immediately said he had been shot at. Three children and habitants were burned in the house. I hope there will be no more such horrors."

Some uneasiness appears to have been felt also by Lance Corporal Paul Spielmann.

"The inhabitants have fled in the village," he wrote. "It was horrible. There was dotted blood on all the boards, and what faces one saw, were terrible to behold. The dead slaty in all, were at once buried. Among them were many old women, some old men, and a half delivered woman, awful to see; three children had clasped each other, and died thus."

PREACHERS DEFEND ACTS.

German pastors and professors, safe at home, however, defended the policy with calm conviction.

"We are," wrote Pastor D. Baumgarten, "compelled to carry on this war with a cruelty, which resembles an employment of every imaginable device, unknown in any previous war."

"The fate that Belgium has called down on herself is hard for the individual," admitted Prof. Oncken, writing for the North German Monthly, "but not too hard, for the destinies of the immortal great nations stand so high that they cannot not have the right, in case of need, to stride over existences that cannot defend themselves, but live as parasites, on the rivalries of the great."

HAD MUCH BRANDY.

Dominio Faustini, an Italian, of No. 1468 Bigge street, was arrested yesterday on a complaint alleged by A. O. Kriste of the internal revenue department, charging him with having in his possession large quantities of brandy that he distilled. Faustini says that he purchased the liquor, and denies that he distilled it. He furnished bond in \$1000.

Harbor Convention Delegates Predict Big Things for Our Port.

the Pacific Coast Association of Port Authorities expressed the opinion yesterday that facilities here are ample, and that the one absolute necessity is trade.

Many of them expressed surprise that the harbor is not better patronized, when they viewed its numerous improvements and considered its geographic advantages. C. M. Gordon, president of the Los Angeles Harbor Commission, found the delegates agreed that the ports of the United States, from San Francisco consigned from New Zealand, Australia, Central America, Mexico and South America to Genoa, and from Genoa to San Francisco, except shipments consigned from the east coast of South America.

William Sproule, former president of the Western Pacific Railway and now regional director for the Rail-

road Commission, who had just seen the proposed sites for drydocks, and then viewed the entire harbor from Point Pirgion.

At noon the luncheon at the Naval Reserve Training Station, after which they visited the Submarine Base and other government reservations. The afternoon was spent in discussion which lasted for two hours and gave the visitors a fine opportunity to see the inner and outer harbor. The weather was ideal for such a tour.

The convention will close with the forenoon and afternoon sessions at the Hotel Hamilton.

At 10 o'clock this evening H. M. Nicholas of this city will read a paper on "The Fishing Industry," mayor of San Francisco.

"Port San Diego and Harbor Ethics" and there will be a general discussion of both subjects. A business meeting and a reception will close the convention.

CHANGES ON BENCH.

Judge Victor E. Shaw of the District Court of Appeal has been designated by the Supreme Court to fill the vacancy in the latter body caused by the temporary withdrawal of Justice Joseph H. Myers from the court yesterday. The appointment takes effect next Monday, when the State Supreme Court will meet here for its October meeting. Justice Shaw finds that he will begin his new duties a short respite from his labors. It is said.

To take the place of Judge Shaw on the bench of the District Court of Appeal, Superior Judge Myers has been appointed by the Supreme Court. He will begin his new duties next Monday.

such as terminals, docks, repairs plants, entrance and clearance possibilities, etc., are the things upon which a harbor business must stand or fall. Business comes where it is most easily handled. It used to cost hundreds of dollars for a boat to lie idle a day. Now the shipowner loses thousands each day his boat is idle. Rapid loading and quick unloading make a harbor attractive to ship men. The port which lies in

ships the shortest route from the one that enjoys the greatest prosperity."

TRIP TO HARBOR.

Those in attendance at the convention of harbor authorities enjoyed a delightful trip to the harbor yes-

and plans of the Pacific Home Telephone and Telegraph Company in San Bernardino and Long Beach, exclusive of the office buildings and real estate to the Union Home Telephone and Telegraph Company. The consideration, according to the deal, was \$250,000.

MIXTURE OF RACES
IN COTTON FIELDS.

BLYTHE, Oct. 9.—The Tower of Babel had nothing on the ranch of C. C. Welsh, pioneer rancher of Blythe, and property owner of Los Angeles. Mr. Welsh has half a hundred cotton pickers now at work in his fields. Their numbers include nearly a score of nationalities. These have one long Irishman, seven Filipinos, many Mexicans, one Eskimo, one Indian, Indians from three tribes, Swedes, Hollanders, Spanish, Japanese, Chinese, several Filipinos, some South Sea Islanders, four Portuguese and some others. Mr. Welsh figures there are eight religions represented there, including several non-Christian races. There are several exclusive groups that work alone and never mix with the rest, on racial principles.

BIG TOURIST TRAVEL
WEST, PREDICTION.

FUELED SHORT, EASTERNERS ARE LOOKING TOWARD CALIFORNIA, DECLARES LINNARD.

PASADENA, Oct. 9.—There is every indication of a big season for tourist travel this winter, said D. M. Linnard, president of the California Hotel Company, controlling the hotels in this city, upon his return from the East, where he has been for more than a month.

Linnard added other expressions of a similar nature, indicating that his observations and the reports of the East lead him to think that tourist travel will be heavy.

Before the East he was making no such predictions regarding the road facilities ample.

The scarcity of coal in the East is one factor that will increase travel to California, he said.

While in the East Mr. Linnard and associates acquired new resort hotel in Atlantic City and a new structure adjoining it.

The combined buildings will be operated as one hotel under the name of the Ambassador and will be linked with the California Hotel Company's main line of hotels.

The Atlantic City hotel will be a regular California ambassador, said Mr. Linnard.

California will be advertised to the Atlantic City visitors and a book-keeping office for California hotels maintained in California, he made more advertising in the East.

PLOW THROUGH
HUN HORDES.

We Got Three Boches for One of Our Men, Writes Soldier at Front.

SANTA MONICA BEACH, Oct. 9.—Haven C. Nutting, nephew of Mr. and Mrs. R. O. Cowan of this city, has a small opinion of the prowess of the Boches, based on his personal experience. As a member of the One Hundred and Fifty-seventh Infantry he was in some of the midsummer drives and he writes that the raw American levies went through the trained Prussian hordes.

"Our ranks were thinned somewhat," he wrote to his aunt, "but we got three Boches when they got one of our men."

Nutting saw service on the Mexican border as a member of the Montana National Guard. Later, while on guard duty at the entrance to a tunnel on the Northern Pacific Railroad in Montana, he was wounded through the arm by some unknown enemy.

DR. HAUCK TO LEAVE.

FULLERTON, Oct. 9.—Dr. E. W. Hauck, supervisor of the Fullerton Union High School, has answered the call to service and will leave in two days for Camp Zachary Taylor, Kentucky, for four months' training in the field artillery.

Dr. Hauck served through the Spanish-American War. He has been captain of the Home Guard Company for the past year and a half. The board of school trustees will give him a leave of absence during his service in the army.

MUST RETURN FLIGHT RATE. BAKERSFIELD, Oct. 9.—Applicants for flight licenses must be returned to Kern county shippers by the Santa Fe Railroad as a result of a ruling of the State Supreme Court in San Francisco. It was stated in the court ruling that \$10,000 must be returned to shippers in the Santa Fe Railroad.

The fact that the rates were too high, based on the short-haul clause of the State Constitution.

RAILWAY WINS IN MAN'S DAMAGE SUIT. The evidence in the damage suit of Silas L. Berry against the Los Angeles Railway before Judge Sherk yesterday showed that Mr. Berry was blocking other passengers on a trolley car by standing in the aisle, refusing to move forward when requested by the conductor. The latter finally said he would be obliged to put Mr. Berry out of the car.

Mr. Berry said he had paid for that place and proposed to keep it. An encounter was under way when an officer ordered the conductor to quit. Judge Sherk gave judgment in favor of the railway, holding that Mr. Berry had moved forward when requested by the conductor.

ON BRIBERY CHARGE. The case of the government against Sukeroku Tamashino, Yelme Hengan and Ryori Hirayama, charged with trying to bribe Immigration inspectors to obtain a passport, by the payment of \$70 in cash and a check for \$200, will go to the jury in U.S. District Judge Oscar A. Trippett's court this morning.

TELL NEED OF ROAD
THROUGH THE MALIBU.

SETTLERS TESTIFY IN SUIT OF COUNTY TO CONDEMN RINGING LAND.

"Either you are going to take me to Los Angeles or I am going through that gate," John Fitzpatrick told the jury in Judge McCormick's court yesterday in a Frank recital of the efforts of the settlers in the Malibu mountains to find a way to Santa Monica for provisions. He had been halted by a guard on the Malibu ranch, he said, and he broke the gate. The county is seeking to condemn a highway through the property of Mrs. May K. Rindge.

The settlers, claiming that they were starving in the mountains, called a mass meeting and decided to go in a body through the Malibu ranch. The way was barred by gates and guards were stationed to see that they did not pass through the Malibu ranch.

Eleven determined settlers were in the party on this occasion. "You can't go through," declared a guard at the first gate.

"Watch us," a settler cried. He pulled a revolver, fired at the lock and broke it. The settlers filed through. They drove to Santa Monica and bought provisions.

"We are starving," said Mr. Fitzpatrick, a hunky young rancher. Jacob Richter, also a rancher, gave a pathetic recital of taking his sick wife over the rough mountain trail to obtain the services of a doctor.

There were places where he was forced to carry her in his arms, he told the jury. There was no other way out of the mountains by the road.

DIVORCES PUBLISHER. Santa Ana Marriage That Only Lasts a Year Is Untied by Superior Judge Here.

Another Santa Ana marriage of 1915, was untied in Judge Wood's court yesterday. Mrs. Elizabeth G. Gated, divorced from Charles Fuller Gated, formerly the publisher of an automobile magazine, now a traveling salesman, on the ground of desertion.

A letter from Mr. Gated was offered in evidence, which stated that they could not be happy together and that he was not coming back. A year after the marriage the couple separated.

THREE ARE ARRESTED AFTER A GUN BATTLE. According to information received last night by Chief Butler from Fresno three persons were arrested there yesterday after a gun battle and are held on suspicion of grand larceny. The trio were in possession of the automobile of C. A. Stavrow, local furniture man, which was stolen in this city several days ago.

Those under arrest, the police say, are Mrs. Dorothy Moore, Pacific Hotel, Alameda C. Hawthorne, No. 411 E. East avenue Twenty-eight, and R. A. Jacobs, No. 326 West Eighty-third street, all of this city.

The arrests are the result of the shooting at a traffic policeman of Madera by Hawthorne, the police say. The Fresno police were asked to apprehend the auto party, and ran into them midway between the two cities.

They followed a gun battle, but whether or not other officers or members of the auto party were shot, the police here did not know last night. The automobile was finally driven into a telephone pole by Jacobs, and completely wrecked. Jacobs said that he secured the machine from a Los Angeles man named Hooker, in payment for a debt of \$450. A complete investigation will be made by local police today.

BANDITS PLAY POOL; HOLD UP PROPRIETOR. Police last night were searching for three men in a small black automobile who held up and robbed A. H. Daring, a pool hall proprietor, in his shop at No. 1412 West Jefferson street, taking from him \$19 and a watch.

The three men entered the pool hall, and after playing two games of pool one of them went out and started the automobile, which was standing in front of the hall. The second bandit went to the cigarette counter and secured some cigarettes, while the third man stuck a gun in front of Daring and robbed him. As the two bandits were leaving the store Daring picked up a billiard cue and struck the man with the gun over the head. The latter ran to the machine and the trio escaped.

WAR IMPOST PAYMENTS HERE REACH BIG SUM. Large payments on account of the floor tax levied on many articles are now being made at the office of Collector of Internal Revenue Carter, and that official estimates that not less than \$300,000 was paid during September, meaning payments of more than \$10,000 a day on such account.

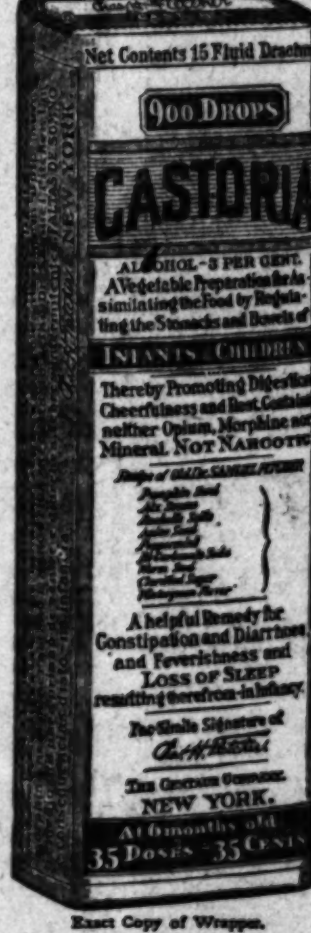

Another source of income under the present war revenue law is from the four producing motion-picture plants of the city. The tax is levied on the negative film, and thousands of dollars will be realized, it is believed.

One of the queries that is taxing the ingenuity of Collector Carter, among others, in connection with the pending war revenue bill, is the identity of the individual who is to be charged with the responsibility of paying the tax levied upon women's gowns costing more than \$40. Will it be up to the merchant who sells the gown, the owner of the stuff, or the store or seamstress who makes up the garment? Anybody capable of solving this Sam Loyd puzzle will confer a favor by communicating with Collector Carter.

Counterfeits.

Read what one of the GREATEST NEWSPAPERS IN AMERICA has to say on this subject:

"The manufacturers of Castoria have been compelled to spend hundreds of thousands of dollars to familiarize the public with the signature of Chas. H. Fletcher. This has been necessitated by reason of pirates counterfeiting the Castoria trademark. This counterfeiting is a crime not only against the proprietors of Castoria, but against the growing generation. All persons should be careful to see that Castoria bears the signature of Chas. H. Fletcher, if they would guard the health of their children. Parents, and mothers in particular, ought to carefully examine the Castoria advertisements which have been appearing in this paper, and to remember that the wrapper of every bottle of genuine Castoria bears the fac-simile signature of Chas. H. Fletcher, under whose supervision it has been manufactured continuously for over thirty years.—Philadelphia Bulletin.

C. G. A. Leder, of Philadelphia, Pa., says: "For 30 years we have sold Fletcher's Castoria and are pleased to state that it has given universal satisfaction."
The Schulte Drug Co., of Denver, Colo., says: "Fletcher's Castoria has surely become a household word. Sincerely every family where there are children uses it."
Hoskins & Mansfield, of Boston, Mass., say: "We have nothing but good to say about your Castoria and we do not hesitate to give it our unqualified endorsement."
Riker's Drug Store, of New York City, says: "Fletcher's Castoria is one of the oldest and most popular preparations in our store. We have nothing but good to say about it."
Wells-Wilson Drug Co., of St. Louis, Mo., says: "Of the thousands of patent medicines for which we have demand there are a very few of them that we can conscientiously recommend and your Castoria is included in this few."
D. R. Dyke & Co., of Chicago, Ill., say: "The increasing demand for your Castoria shows that a discriminating public is not slow to seek out a remedy of merit and one convinced that it does all and even more than claimed they do not hesitate to recommend it to their friends."
The Owl Drug Co., of San Francisco, Cal., says: "We have always been a believer in the 'original man protection' and have been particular never to sell anything but the genuine and original Castoria (Fletcher's). We have many calls every day for this article from people who say they would not be without it in their homes."

Now the fight of fights is on. It is the crucial hour of civilization. We must fight harder, sacrifice more, work harder, give more, push harder, buy more bonds—lend every ounce and atom of strength and blood and resource that we have, to the final blow that shall bring Germany to President Wilson's terms—which are the terms of the Allied nations.

"Yes," said young Shipley. "But I don't have to swear at them, do I?"

In a few days, when the soldiers come and their palates become more voracious, these excursions to the countryside in quest of food are a desirable experience to the soldiers. We found patches of blackberries may have touched for a night on their tour through France.

ARMY CAPTAIN FACES PRISON.

Camp Kearny Man to be Tried
by Court-Martial.

Accused of Stealing Mess
Fund and Desertion.

He and Woman Seek Death
Rather Than Arrest.

Charged with desertion and embezzling company funds amounting to \$1100, Capt. Frank Lawrence Fowler, Thirty-second Infantry, Camp Kearny, was placed under arrest early yesterday morning by members of the Department of Justice.

The army officer was found in a fashionable apartment in the Wilshire district. He was living under the name of Capt. George Bell, in the company of a woman, whose name is withheld. When the officers arrived to place Capt. Fowler under arrest, the two were said to have attempted to kill themselves with a small caliber revolver. He sustained a minor wound on the right side of his head. The woman received a flesh wound in the chest. At the County Jail Capt. Fowler refused to receive medical attention, saying that he would have the wound dressed when he arrived back at his station.

While military authorities would not allow the prisoner to be interviewed, it was learned that Capt. Fowler left his regiment fifteen days ago and was last seen in San Diego boarding a train for Los Angeles. When the shortage of the mess fund was discovered, officials were notified. Late Monday night the prisoner was observed in a downtown motion-picture house. He was followed to his apartment and the Department of Justice notified. The captain is said to have refused to make any statement, other than that he lost most of the money gambling.

When Capt. Fowler is returned to Camp Kearny he will face a charge of desertion, which carries the death penalty in time of war. He will be sent south today. Capt. Fowler was an enlisted man, formerly being stationed at Schofield Barracks, Honolulu. Last fall he received his commission and was transferred to Camp Kearny.

Civil Suit Reveals Secret Wedding.

Mrs. Walter G. McCarty.

BARE ROMANCE IN COURT.

Through a proaic civil suit in Superior Judge Avery's department, the hitherto untold wedding of Walter G. McCarty, to the widow of Robert D. Barr, late Coast manager for the Firestone Tire and Rubber Company, became public yesterday. The former Mrs. Barr was the defendant in the action and was accompanied to court by Mr. McCarty. The bride, smiling and handsomely gowned, occupied a seat among the spectators. Mr. McCarty paying for her the little attentions of a happy groom. The secret was given away when Mr. McCarty was heard to ask a friend if he had met his wife. Introductions followed. Later it was learned that Mr. McCarty and Mrs. Barr went to Ventura, September 21, and on that date were married by a justice of the peace. It was a very quiet wedding, with none of their friends present. Upon their return to this city the news was told to relatives. This is Mr. McCarty's second marriage, he having been divorced in the local courts more than a year ago. Mr. Barr, the former husband of the bride, met a tragic death in an automobile accident some years ago.

WAS AFRAID OF HIM.

So Says Wife in Divorce Suit; Tells of Incident When Husband Wanted Her to Put on His Socks.

Mrs. Irene Dixon declared, in divorce proceedings in Judge Wood's court yesterday, that her husband, Ralph H. Dixon, called her into the bedroom.

"He asked me to put on his socks," she said. "I was afraid of him. I did not want to do it, but he became angry, picked up a shoe and threw it at me. I was just able to dodge it."

She testified that her husband also threw a knife and a brush at her. The brush struck the wall and was broken. She denied her husband's charge that she was out at least five nights a week, or that she returned about breakfast time. Mr. Dixon was represented in court by an attorney, but did not contest the case. The decree was granted.

The decision of the National Association of Motion Picture Industries to discontinue all motion picture film releases after October 15 on account of influenza will have no effect in Los Angeles, according to statements made last night by local men prominent in the motion picture industry.

Sid Grauman, manager of Grauman's Theater, said that he has plenty of films on hand, that no word had come from anyone to close, and that he has not heard a single sneeze in any of his audiences.

The Associated Press dispatches from New York last night stated that President William A. Brady of the National Association of Picture Industries announced the embargo, which will have the effect of closing the houses of its members, will remain until further notice. T. L. Tully, Tully's Broadway Theater, and a director of the First National Exhibitors' Circuit, said that as far as his decision to close his theaters, he has always represented the motion picture industry in its relations with the government. Sid Grauman, manager of Grauman's Theater, said that he has plenty of films on hand, that no word had come from anyone to close, and that he has not heard a single sneeze in any of his audiences.

EMBEZZLER ODDLY TAKEN.

Girl's Trunk Tips Police to Man Much
Wanted in Chicago.

A woman's insistence that he call an express man to take her trunkful of pretty clothes to the station, for a short trip to Catalina Island, led to the arrest yesterday of Francis C. Friss, former secretary and treasurer for C. F. Childs & Co., Chicago bond brokers, on a charge of embezzlement of about \$30,000, and of Gladys Healy. They are in the City Jail. The couple left Chicago about two weeks ago, following what Mr. Friss declared was the most exciting time of his 21 years. She is also 21.

Soon after the call came for an express wagon to carry the trunk to the station, Detective Finlanson was on his way to their apartment. The couple had been under observation and the call for the expressman indicated that they were about to "skip." Friss says he planned to return to Chicago and make good the theft of his firm's money, which he freely admits, in an exciting week of gambling.

According to the story told the police yesterday by Friss, he still was in the employ of the bond brokerage firm of which his brother, R. J. Friss, is vice-president. Friss, whose wife lives on No. 1617 Laramie street, says, asserts that he lost some of his own money on watching dice roll on a green baize table. He tried to catch up, but eventually counted his losses as nearly \$30,000. He confided to Miss Healy, a waitress in the restaurant where he was dining, that he was about to take a big gamble, and so he drew \$5000 more and asked the girl to come with him to California. The couple went in an auto to Alton, Ill., where they left the car and came by train to Los Angeles. They say they planned to go to Catalina and then go back to Chicago and endeavor to straighten out the affair. The trunk incident stopped all further plans. The couple are known as "Mr. and Mrs. Frank Healy."

Chicago will seek extradition of the young man. Friss believes his wife will come to his aid. He says he is sorry for his affair, but that he is not sorry for his wife. He bought an automobile while here and was expecting to move to Chicago, he declares.

(The young man himself is said to come of a prominent Chicago family. He says he still has a part of the money left. Yesterday he endeavored to telegraph his wife. He bought an automobile while here and was expecting to move to Chicago, he declares.
